3.
I have considered the recorded audio of Assignment-1.
The sentence: "HE STOLE THE MONEY"

Aligner used: https://web.uwm.edu/forced-aligner/out/202409231422

The output has been saved in the "Q3/Results" folder, and the results of the phoneme boundaries (start and end times of each phoneme) from my recording have been submitted in a `results.csv` and an aligned `Textgrid` file.
